

11 January 2018

Dear Cargo Industry Stakeholder,

Re: IATA Dangerous Goods Workshops

The International Air Transport is holding two interactive 1 day workshops which will include guest speakers from across the supply chain, learn about the essentials of shipping dangerous goods and lithium batteries by air.

Target Audience

The Workshop targets all stakeholders of the air cargo supply chain. It is of particular importance to couriers, shippers, freight forwarders, ground handlers and airlines in the industry.

Dates and Locations

Johannesburg, South Africa – 31st January 2018

Cape Town, South Africa – 1st February 2018

Key highlights

- An overview of the current regulatory framework and what changes will come in 2018 and beyond.
- How these regulations align to the ICAO Technical Instructions, and
- Regulatory compliance of the different entities in the supply chain giving you the opportunity to learn exactly what steps you need to take to keep the supply chain safe.
- Participation fee is USD125 and all will receive a free electronic (windows or mobile) copy of the DGR 59th 2018 edition valued at USD328.

Registration & more information
